

## Semi-Gloss Paper Heavyweight

### Part Number

S041292 (24" x 82")  
 S041229 (36" x 82")\*  
 S041228 (44" x 82")\*

### For use with

EPSON Stylus® Pro 7000  
 EPSON Stylus Pro 9000

- **Guaranteed compatibility**
- **Optimum output quality**
- **Made of highest quality materials**
- **Backed by Epson customer support**
- **Easy installation and trouble-free operation**

### Product Information

EPSON Semi-Gloss Paper Heavyweight is perfect for users requiring photographic output on a semi-gloss surface. Applications include photographic images, promotional pieces, layouts, portfolio images, proofs, indoor displays and posters.

This media is an instant drying semi-gloss paper that can reproduce photographs that rival the traditional photographic process in image quality. Its low glare surface makes it ideal for indoor signage and posters.

Unlike universal papers, designed to print on both thermal and Micro Piezo™ platforms, EPSON Semi-Gloss Paper Heavyweight is specially engineered to optimize the ink chemistry which is specific to Micro Piezo technology. Therefore, the print quality of a universal paper used with an Epson printer is far below Epson's quality standards. In addition, Epson's printer driver software actually controls the amount of ink released onto EPSON Semi-Gloss Heavyweight. This results in the highest resolution and color saturation possible.

As always, EPSON supplies guarantee EPSON quality.

### Features/Benefits

- Dries instantly for easy handling with Epson inks
- High color gamut for excellent color reproduction
- Semi-gloss surface for photo-like prints
- Laminates easily; a versatile media for most applications
- 1440 dpi printing for high resolution output
- Heavyweight base for increased durability

### Technical Specs
