

iProfile™ Bundle

One Big Package. One Small Price.

A complete color management solution. Right out of the box.

When it comes to color management, GretagMacbeth's Spectrolino spectrophotometer and ProfileMaker™ software have set the highest standards in the business of color perfection.

Now, with the new iProfile™ Bundle, you get both of these products and more. So you can profile all types of input and output devices, including flat panel displays and digital cameras. All, at a special low price.

A complete color management solution in a single, integrated system

Just look at all you get with iProfile Bundle:

- **Spectrolino** – Handheld spectrophotometer measures reflective and transmissive materials as well as your monitor. Also serves as a dongle so you can use ProfileMaker on both Mac and PC platforms.
- **SpectroScan** x/y table with white scanning base – For hands-free, error-free measurement of test charts. Eliminates the need to put stock paper underneath the printed test charts being scanned.
- **Flat Screen Holder** – Enables Spectrolino to measure flat panel displays.
- **ProfileMaker 3.1 iProfile Edition** – Creates accurate, reliable ICC profiles for monitors, scanners, proofers, printers, and presses. Also includes Digital Camera profiling module with ColorChecker DC digital camera reference chart.
- **BatchMatcher PS** – Color management workflow tool applies ICC profiles to EPS, PostScript, TIFF, JPEG, and Scitex CT files.
