Photo Rag™ Satin, 310 g/m²

Bright White, 100% rag content, smooth surface

© Milton H. Greene Archives "Dovima", 2002 - www.archivesmhg.com

Product Description

Available in 17", 24" and 44" rolls and all standard cut sheet sizes. A smooth, white 100 % rag based paper specifically designed to meet the need of photographers or artists using digital photographic output. This 310 gsm paper provides the weight of an art paper with a smooth, semi-gloss calendered surface, which picks up every detail captured in the photograph. This paper produces a semi gloss shine on printed art works and photographs. The unprinted part remains matt.

Applications and Characteristics

The coated side of this paper provides excellent image sharpness and optimum colour graduation. The coating also offers a very high level of water resistance.

Common applications include: Photographic and fine art reproduction, business cards, greeting cards, certificates and bookmaking. It is also ideal for computer generated artwork.

Physical Characteristics

	Unity	Valuation	Test Norm / Notes
Test Conditions		23°C / 50% R.H.	SGCo2
